City/country: Stockholm, Sweden  
Architect: Mattias Stenberg  
Collection: Flow Tide, Pearl, Alga, Coral, Stream, Shell  
Area: 700 m<sup>2</sup>  
Year: 2015

## Designbaren, SFF in Stockholm, Sweden

The Design Bar is a temporary exhibition area, including a restaurant and lecture space, designed in a new way each year at Stockholm Furniture Fair. The Design Bar 2015 was designed and curated by Swedish designer Mattias Stenberg as a homage to childhood memories of Norrland, the Northern part of Sweden with its own special light and nature – a scenery Flow reflected and set new expressions to. Different articles in the collection were installed over an area of 700 square meters – rolls, tiles and Bolon Studio™ Scale.
