## Daum Communication in Jeju Island, South Korea

The South Korean architect studio Mass Studies has really used the creative possibilities with Bolon Studio™ tile Deco when designing the assembly hall of the new head quarter for Daum Communication. Located on the volcanic island Jeje, Daum Space 1 is a beautiful, ochre coloured building that blends into the surrounding area. One could describe the workplace's architecture as futuristic and humane, a combination of essential keywords for Bolon flooring as well.
