

PROJECTS WE LOVE

PROJECT INFORMATION

Project	Fortum HQ
City/country	Espoo, Finland
Architect	Kohina Oy
Collection	Bolon Studio™ Wing Create Fabrico, Converso
Area	1300 m ²
Year	2017

FORTUM FINLAND

Finland's leading electricity-company, Fortum, assigned architect Kohina Oy to design a modern, activity-based office that accommodates for all working needs. Through the installation of 1300 square meters of Wing studio tiles from the Create collection, Oy succeeded in achieving a modern design concept that both accommodates for various working styles but also repeats the very core of the Fortum brand – energy.
